TAKT COMMUNITY

wait there's more

TAKT LIBRARY

- **Takt Discord library** full access (biggest library of construction takt planning and takt control content on the planet) with 1000's of hours of video, content, images, diagrams, templates, data, research and so much more.
- **24/7 access to Spencer Easton** via discord (we can chat, my commitment is to respond with-in 24 hours of any post or question).
- **Office hours** where I go live a few hours per week and we can meet and discuss your progress and see how your planning, scheduling and execution in the field is going.

1:1 TRAINING

- I provide **1:1 custom tailored trainings** for you on any concept even related to takt like:
 - **How to** do the process on your project
 - **Manage Delays** and Imapcts
 - **On boarding trades** to understand what we are doing,
 - **execution steps**
 - **pro tips**
 - Even **how to adjust your MSA** to reflect takt as your system.
- I will respond to you directly with a **personalized video** on what ever topic you have questions on. Watch at your convenience (and even at 2x speed)

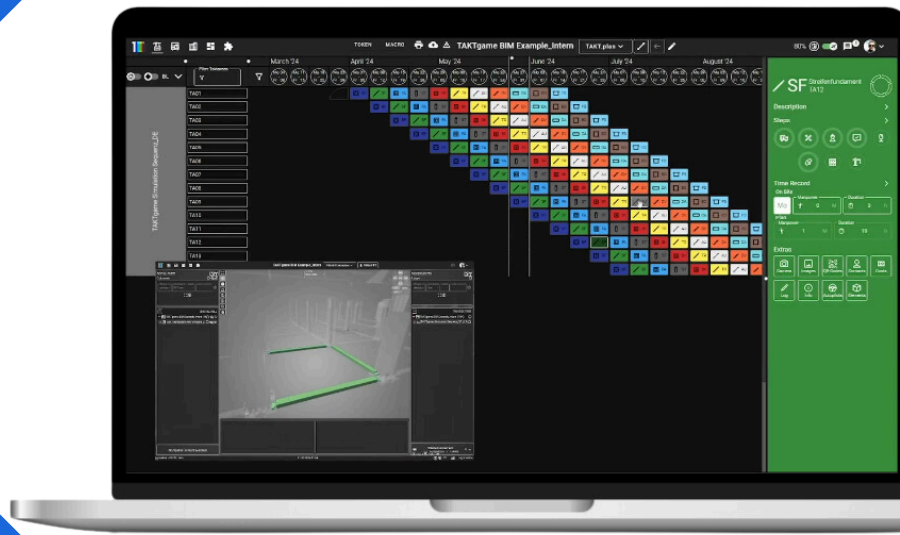

TAKT.ING SIMULATION

- **1 Free Ticket** to any Takting Simulation event around the USA that I am facilitating. As the Leading expert in this simulation in the USA I am a top tier partner with training this simulation and can accommodate up to 60 people in a single simulation. *(travel not included)*
- **Train the Facilitator** I have worked with a number of organizations, companies and universities to help them set up their own internal Takting Simulation Trainings. I can help you develop the right approach and capabilities to deliver this best in class learning experience. (
- **Discounted simulation kits** from Germany for certain customers. Ask about this opportunity.

TOOLS LAB & MORE

- We have the best **tools and tech lab** on the planet for applying the production principles of takt planning and takt control. I have all the major platforms and have done in-depth analysis of all tools so we can custom tailor the right tools and tech for you.
- Join a **community of takt professionals** that are in your same boat, construction industry folks that are applying takt to their projects. This is the best community to share and learn from as they are applying it on their jobs and sharing on this Discord Server.
- **Connect with the world leading experts in Takt.** All four of the world leading experts in takt are on are on this platform and you can ask them questions directly and we will respond . I will also have other top level guest speakers a few times per year.

My commitment & goal is to work myself out of a job, if you need me as a "consultant"... then I have failed at my job.
